

## **Come And See**

C-G C-G Em-D

When will I come, and behold the LORD  
    In the dry and weary land  
When will my heart, melt in your gaze  
    In the presence of your glory

C-G-D

Come and see that the Lord is good;  
Taste and see that He will satisfy  
Come and see Him long for you today;  
Hear and listen to His still small voice

When will I eat at the King's table  
    The portion prepared for me  
When will I draw near, to feel the warmth of His embrace  
    Just to know you care

When will I behold, the wonders of His love  
    In the dark and dreary day  
When will the beauty, of the Lord consume me  
    In the far far thoughts gone by
